# Index of Subjects

*Acanthocephalus anguillae*, interactions of with *Pomphorhynchus laevis*, 435
Adrenergic agonists, densensitization of *Trypanosoma cruzi* by, 429
Amastigotes, of *Leishmania amazonensis*, effect of dipeptide esters on, 201
*Anopheles punctulatus*, multiple infections in, 369
*Anopheles stephensi*, infectivity of *Plasmodium yoelii nigeriensis* in, 377
Antibody-mediated immunity, to *Schistosoma japonicum*, 235
Antibody response, to *Trypanosoma vivax*, 93
Antigenicity, of *Trichinella* isolates, 491
Antigenic relationships, between stocks and clones of *Trypanosoma vivax*, 101
Antigens, expression of on *Schistosoma mansoni* teguments, 73
identification of on the surface of *Babesia bigemina*, 161
in the cyst fluid of *Taenia saginata* cysticerci, 463
of *Trypanosoma vivax*, 93
*Ascaris lumbricoides*, measurement of infection intensity of, 303

*Babesia bigemina*, common surface antigens of, 161
Benzimidazoles, detection of resistance to in trichostrongyles, 131
Biotin labelling of DNA oligomers, use of in the detection and identification of *Plasmodium falciparum*, 383
*Blastocrithidia triatomae*, effect of on the midgut of *Triatoma infestans*, 1
B lymphocytes, polyclonal activation of during *Schistosoma mansoni* infection, 83
Bradyzoite antigens, of *Toxoplasma gondii*, 389

Cercariae, host specificity of in *Pseudoechinoparyphium echinatum*, 423
Cestode infection, effector function in, 309
Chemotherapy, against *Schistosoma haematobium*, 399
Chloroquine, effects of on *Plasmodium yoelii nigeriensis*, 377
Circumsporozoite protein, in insect cells, 177
Clonal heterogeneity, in *Leishmania* spp., 393
Confocal scanning laser microscopy, of the nervous system of *Diclidophora merlangi*, 255
Covariance, in parasite burdens, 153
Cross-reactivity, between stocks and clones of *Trypanosoma vivax*, 101
Cyclophosphamide, effects of on *Hymenolepis microstoma*-infected mice, 337
Cyclosporin A, toxicity of in *Schistosoma mansoni* in mice, 29
Cyclosporin A-treated mice, morphology of *Schistosoma mansoni* from, 19
Cyst antigens, of *Toxoplasma gondii*, 389
Cyst fluid, protein antigens in, 463
Cysticerci, protein antigens in the cyst fluid of, 463

Density-dependence, of expulsion of *Necator americanus* from hamsters, 469
Desensitization, of *Trypanosoma cruzi* by adrenergic agonists, 429
Development, of larval *Echinococcus granulosus* in heart tissue, 453
Developmental commitment, of *Plasmodium falciparum*, 191
Dexamethasone, effects of on *Hymenolepis microstoma*-infected mice, 337
*Diclidophora merlangi*, the nervous system of, 255
Differentiation, in *Plasmodium falciparum*, 191
of *Taenia saginata* and *Taenia solium*, 459
Dipeptide esters, effect of on *Leishmania amazonensis* amastigotes, 201
DNA rearrangement, in *Schistosoma mansoni*, 241
DNA oligomers, use of in the detection and identification of *Plasmodium falciparum*, 383
DNA probes, use of for the differential diagnosis of *Taenia saginata* and *Taenia solium*, 459
Drug resistance, of *Haemonchus contortus* in sheep, 327

East Coast fever, effects of oxytetracycline on, 11
*Echinococcus granulosus*, development of larvae of in heart tissue, 453
macrophage-mediated larvicidal activity in, 309
*Echinococcus multilocularis*, in golden hamsters, 125
Egg antigens, of *Schistosoma mansoni*, 73
Egg transmission, in taeniid tapeworms, 143
Entomopathogenic nematodes, occurrence of in British soils, 295
persistence of, 289
Epidemiology, of hookworm in Papua New Guinea, 317
of *Schistosoma haematobium* in Mauritania, 399
of *Trypanosoma brucei*, 219
Epidemiology of schistosome infections, temporal patterns in, 247
Epidemiology of trypanosomiasis, possible role of Rickettsia-like organisms in, 209
Epimastigotes, variable antigen types of in *Trypanosoma congolense*, 107
Erythrocyte shape, effect of malarial exo-antigens on, 185
Excretory-secretory antigens, of *Necator americanus*, 317
of *Trypanosoma cruzi*, 115
Exflagellation, in malarial parasites, 359
Exo-antigens, of *Plasmodium falciparum*, effect of on red cell shape, 185
Expression, of malaria antigens in insect cells, 177
Expulsion, of adult *Necator americanus* from hamsters, 469

Fitness, of *Haemonchus contortus* in sheep, 327

Gametocyte infectivity, in *Plasmodium berghei*, 359
Gametocytogenesis, in *Plasmodium falciparum*, 191
Genomic clones, derived from *Schistosoma mansoni* miracidia, 241
Glutathione transferases, from *Hymenolepis diminuta*, 137
in helminths, 345
Glycoproteins, on the surface of *Trypanosoma vivax*, 93

*Haemonchus contortus*, drug resistance and fitness in, 327
Heart tissue, development of larval *Echinococcus granulosus* in, 453
Helminths, glutathione transferase in, 345
Honey bee mortality, due to tracheal mites, 147
Hookworm, epidemiology and immunology of in Papua New Guinea, 317
Host-finding activity, of *Salmincola edwardsii*, 417
Host responses, to *Trichinella* isolates, 491
Host specificity, of the cercariae of *Pseudoechinoparyphium echinatum*, 423
Host utilization, by *Pseudoechinoparyphium echinatum*, 423
Hydrogen peroxide, toxicity of for *Onchocerca cervicalis*, 407

*Hymenolepis diminuta*, effect of on juvenile hormone, 445
glutathione transferases in, 137
*Hymenolepis mircostoma*-infected mice, effects of immunosuppressants on, 337

Identification, of *Plasmodium falciparum*, 383
Immunization, of poor responder mice against *Trichuris muris*, 479
Immunity, antibody mediated, to *Schistosoma japonicum*, 235
in vaccinated guinea-pigs against *Schistosoma mansoni*, 35
site dependency of for *Schistosoma mansoni* in rodents, 57
to *Schistosoma mansoni* in vaccinated mice, 45
Immunoelectron microscopy, of *Babesia bigemina* antigens, 161
Immunogens, characterization of on the surface of trypomastigotes, 115
Immunomodulation, of the response of poor responder mice to *Trichuris muris*, 479
Immunosuppressants, effects of on *Hymenolepis microstoma*-infected mice, 337
Infection intensity, measurement of in *Ascaris lumbricoides*, 303
Infectivity, of *Trichinella* isolates, 491
Interspecific competition, between acanthocephalans, 435

Juvenile hormone titre, effect of *Hymenolepis diminuta* on in *Tenebrio molitor*, 445

Larval development, of *Echinococcus granulosus* in chicken heart tissue, 453
Larval paralysis assay, use of in the diagnosis of resistance to thiabendazole, 131
*Leishmania amazonensis*, effect of dipeptide esters on, 201
*Leishmania* spp., population heterogeneity among clones of, 393

Macrophage-mediated larvicidal activity, regulation of in cestodes, 309
Malaria antigen hybrids, expression of in insect cells, 177
Malarias, prevalence of natural multiple infections of in anophelines, 369
Mathematical model, for human and animal trypanosomiasis, 209
Mathematical model, for schistosome-snail epidemiology, 247
Mathematical models, to describe covariance in parasite burdens, 153
Mebendazole, effect of on expulsion of *Ascaris lumbricoides*, 303
Mechanical stimulation, responses of *Salmincola edwardsii* to, 417
*Mesocestoides corti*, macrophage-mediated larvicidal activity in, 309
Metacestodes, and host juvenile hormone, 445
Microfilariae, toxicity of hydrogen peroxide for, 407
Midgut ultrastructure, of *Triatoma infestans*, 1
Migration, of nematodes in the rat gut, 275, 281
Morphology of erythrocytes, effect of malarial exo-antigens on, 185
of *Schistosoma mansoni* from cyclosporin A-treated mice, 19
Mortality, in honey bees, 147
Multiple infections, in anophelines, 369

*Necator americanus*, epidemiology and immunology of, 317
in DSN hamsters, 469
Negative binomial distribution, in honey bees, 147
Nervous system, of *Diclidophora merlangi*, 255
Neuropeptides, in *Diclidophora merlangi*, 255
*Nippostrongylus brasiliensis*, migration of in the rat gut, 275, 281

*Onchocerca cervicalis*, toxicity of hydrogen peroxide for, 407
Oxidants, toxic effects of on *Onchocerca cervicalis*, 407
Oxytetracycline, effects of on *Theileria parva in vitro*, 11

*Perkinsus atlanticus*, ultrastructural studies on zoosporulation in, 351
Persistence, of entomopathogenic nematodes, 289
*Plasmodium falciparum*, detection and identification of, 383
developmental commitment of, 191
effect of the exo-antigens of on erythrocyte morphology, 185
expression of hybrid antigens of in insect cells, 177
*Plasmodium yoelii nigeriensis*, effects of chloroquine on, 377
*Plasmodium* spp., sexual development in, 359
Polyclonal activation, of B lymphocytes during *Schistosoma mansoni* infection, 83
*Pomphorhynchus laevis*, interactions of with *Acanthocephalus anguillae*, 435
Population genetics, of *Trypanosoma brucei*, 219
Praziquantel, effect of on *Schistosoma mansoni in vivo*, 65
Predisposition to infection, effect of on covariance in parasite burdens, 153
Prevalence, of entomopathogenic nematodes in British soils, 295
*Pseudoechinoparyphium echinatum*, host specificity of the cercariae of, 423

Radio-sensitive cells, role of in protective immunity against *Schistosoma mansoni*, 45
Rickettsia-like organisms, possible role of in trypanosomiasis epidemiology, 209

*Salmincola edwardsii*, responses of to stimulation, 417
*Schistosoma haematobium*, an epidemiological model for, 247
reinfection with in Mauritania, 399
*Schistosoma japonicum*, antibody-mediated immunity to, 235
*Schistosoma mansoni*, DNA rearrangement in during development, 241
infection with triggers polyclonal B lymphocyte activation, 83
low molecular weight antigens on the tegument of, 73
morphology of from cyclosporin-treated mice, 19
role of radio-sensitive cells in immunity against, 45
site dependency of vaccine immunity against, 57
stage-dependent damage to after drug treatment, 65
toxicity of cyclosporin A against, 29
vaccine immunity against in guinea-pigs, 35
Schistosome infections, temporal patterns in the epidemiology of, 247
Schizodemes, heterogeneity amongst in *Leishmania* clones, 393
Sexual development, in malarial parasites, 359
Sexual maturation, of *Echinococcus multilocularis* in golden hamsters, 125
Soil survey, for the occurrence of entomopathogenic nematodes, 295
*Steinernema bibionis*, occurrence of in British soils, 295
persistence of, 289
*Strongyloides ratti*, migration of in the rat gut, 275, 281
Strobilation, of *Echinococcus multilocularis* in golden hamsters, 125
Surface antigens, on *Babesia bigemina*, 161
Survival, of *Echinococcus multilocularis* in golden hamsters, 125

*Taenia saginata* cysticerci, protein antigens in the cyst fluid of, 463
*Taenia saginata*, differential diagnosis of with DNA probes, 459
*Taenia solium*, differential diagnosis of with DNA probes, 459
Taeniid tapeworm eggs, transmission of, 143
Tegument, effect of praziquantel on in *Schistosoma mansoni*, 65
Tegument, low molecular weight antigens expressed on in *Schistosoma mansoni*, 73
*Theileria parva*, effects of oxytetracycline on, *in vitro*, 11
Thiabendazole resistance, diagnosis of, 131
Thiabendazole resistance, in *Haemonchus contortus*, 327
Toxicity, of cyclosporin A against *Schistosoma mansoni* in mice, 29
*Toxoplasma gondii*, identification of the dominant cyst antigens of, 389
Tracheal mites, and honey bee mortality, 147

Transmission, of taeniid eggs, 143
Transmission of malaria, effects of chloroquine on, 377
*Triatoma infestans*, effect of *Blastocrithidia triatomae* on the midgut of, 1
*Trichinella* isolates, infectivity, antigenicity and host responses to, 491
Trichostrongyles, detection of resistance to thiabendazole in, 131
*Trichuris muris*, immunization of poor responder mice against, 479
*Trypanosoma brucei*, population genetics of, 219
*Trypanosoma congolense*, variable antigen types of, 107
*Trypanosoma cruzi*, desensitization of by adrenergic agonists, 429
excretory–secretory antigens of, 115
*Trypanosoma vivax*, antigenic relationship between stocks and clones of, 101
*specific antibody responses to*, 93
Trypanosomiasis epidemiology, possible role of Rickettsia-like organisms in, 209
Trypomastigotes, characterization of the excretory–secretory immunogens of, 115
Ultrastructural studies, of zoosporulation in *Perkinsus atlanticus*, 351
Ultrastructure, of developmental stages of *Trypanosoma congolense* in culture, 107
Ultrastructure, of drug-damaged *Schistosoma mansoni* tegument, 65
Ultrastructure, of *Schistosoma mansoni* from cyclosporin A-treated mice, 19
Ultrastructure, of the midgut of *Triatoma infestans*, 1

Vaccine immunity, against *Schistosoma mansoni* in guinea-pigs, 35
Vaccine immunity, site dependency of for *Schistosoma mansoni* in rodents, 57
Variable antigen types, of *Trypanosoma congolense* in culture, 107
Visual stimulation, responses of *Salmincola edwardsii* to, 417

*Wuchereria bancrofti*, prevalence of in anophelines, 369

Zoosporulation, fine structure of in *Perkinsus atlanticus*, 351
